The wave of love

The moon shines an our naked bodies - we are lying on the beach
The waves touch our feet and she gives me what I need
Her kisses so tender I'm laying just there
It's like a dream, like flying - through the air
But nothing's for ever, please don't fly to high
That's what she said and locked into my eyes
That's what she said and looked into my eyes

Baby don't prevent my flying, you know that I'm not lying
Baby please, baby come with me
Yes, if we advance to together - with love it works much better
Baby please, please let me free

Can't you hear the rustle, appearing from the sea?
A huge wave soon arrives, to take away you and me
Be ready und allow a fling to a new space at all
Live now, then soon we'll get the best reward
Wisdom and power and an immortal live
That's what we need and get don't be afraid
That's what we need and get don't be afraid

Baby we've got this great big chance
I want to hold your hand Baby, please Baby, come with me
Yes, if we advance together - with love it works much better
Baby please, baby let me free

Come Close

Come close and hold me
Please let me be free
I want to hold you
Let's be free tonight
Come close and hold me tight
I want to share my life with you

I want to feel you
As deep as I feel you in my heart
I want to hold you

The flow of Love leads me to you
This flow of Love brings me home to you
Let me find out who you are
Find out - who I am,come close and hold me

Come close - come close to me
Show me who you are

I want to show myself
Let's be honest in our Love

I want to walk with you
In freedom on our own way

I want to grow with you
Out of the darkness into light
I want to be with you

The flow of Love leads me to you
This flow of Love brings me home to you
Let me find out who you are
Find out - who I am,come close and hold me -----

You are the goddess in my heart
Come close I hold you - with my LOVE
Come close and hold me - with your LOVE
Let's find bottom in our live - in our LOVE
Come close I hold you - with LOVE

Space inside

Come on here and see yourself
Allow your point of view a change
Feel the space.... ...the space inside
Digging in the mud of time
All I find and see is mine
The all-embracing space... ... space inside
Come on, now belief me
The one who can change your life, ...your life is you
All we have to face yes
Arises from the room, the room inside...
... Find peace inside, you have peace outside

Who decides how I should live
What I take or what I give
All arises from the space... ... space inside
All I wish is what I remember
Time and mind, form the tempter
All arises from the space... ... space inside

Like a plant that grows
From a seed,it knows how it lives its life
Reality, yes be sure
Arises from the space,the space inside
... Find peace inside, ...you have peace outside

Time stretch

I am born on earth to walk on my own feet - through the worlds on my way
I am down here to smell the ocean - to feel the sunlight on my skin
I am here to fall in Love - with you
I am down here to drink a beer in a small bar, to taste some curry on rice
I am down here to hug a huge tree - to let my hair fly in the wind
All lifetime I am growing - learning about myself, who I am
I am aware, I am alive, I am living - flowing love in a body made of light
Way, my way, life please heal me
Heal my body heal my soul - heal my body heal my soul

I am down here to flow in the water - I am down here to grow in the ground
I am down here to burn with fire - I am down here to breathe the air
I am down find my way in the moonlight - I am down here to argue about Jesus Christ
I am down here to realize peace in me - I tame the animal inside

I am down here to face death around me - to forgive the one who causes me pain
I am down here to find out what the truth is - and how a human becomes a slave
I am down here to throw the demons king
- The demons king down from his throne

Do the Step

I do the step it's my turn now
I dare to even if I don't know how
I'm a member of the shining rainbow
The living water in me wants to flow

The sunshine moves it all around
Earth, water, fire, air as out playground
Reveals the power of our love
Determined long ago here to stay
Where limitations meant to be the way
Until shining light awakens our soul

Come on closer show me who you are
The time has come to stop the war
Let's board now the rainbow ship
We're going on a long awaited trip

The sunshine moves it all....

Do the step it's your turn now
Dare to, even if you don't know how
Be a member of the shining rainbow
The living water in you wants to flow

Mystifying world

Mystifying, mystifying what's going on in my head
A peaceful living, a peaceful living - that's what I want instead
I tried hard not to sin - but there's no war to win
No pure space to find - even in my own mind
My desire for pureness burns like fire
- Desire for pureness burns like fire
Mystifying, mystifying, what happens here an earth
Always dying, always dying, just for a new birth
There are moments I can feel
We are trapped on the destiny wheel, sometimes up and sometimes down
I feel like a cheated clown

That can't be it, damned shit
- No, that can't be it, damned shit

Mystifying, mystifying, I feel the end is near
The final rising, the final rising, makes it for us clear
We are all together one - just remember to leave this run
Soon we are pure and free - Open up your heart and see

We all have a same dream - we all live a same dream
We want to be loved and have always been
- We want to be loved and have always been

Life never ends

The mainstream beats tonight the rhythm for the soul
The doubter wants to hold us down and blinds us with its sound
Bounded by the common sense the mainstream holds the mass
Like a herd that with the butcher ends within a sold life that makes sense
You know that the life, the life never ends
That's my thought, my thought I am talking about myself

I got the living feeling through a doubtless mind we reach
The golden town in a timeless time a reality of peace
Come on now; let's dream tonight the dream of the loving soul
Respect the mass but go your way in the rhythm of the heart
You know that the life the life never ends
That's my thought, my thought, I am talking about myself
That's my thought, my thought.....

You know that the time has come to be aware
That your thought is in charge to give form to all what's there
Free your mind think peacefully, open up your heart
Feel the love flow through you eternity has already start
You know that the life the life never ends
That's my thought, my thought, I am talking about myself
That's my thought, my thought.....

NowTime

This is the time to get a level higher
Time to get together with all my friends
The invitation for this mega party
Has been sent out long time ago

The way is long and it's getting harder
It's not easy to stay in peace
Peace is love in any condition
This is not the aim, peace is the way

The spiral of life elevates us to the space
To the room where this shining party goes on
The room is called, this was clear before
Love and peace, right here and now

We have the right to live in peace on earth
Although powerful gods and tricky men
Want a fearful world goes down in flame
But truth is light has no shade

Rules

I was born not at home in the springtime
This days it rained and was cold outside
My mum was happy but not forever
 I deeply felt the pressure of
 Sorrow and fear

The way I went was full of a dream for
A better world for her and for me
Loss of memory causes isolation
 The demon that I fought is a part
 Of the self that I fear

I'm responsible for all my own life
Rules and conditionings I keep myself
Freedom is peace in my own heart
 Free will means I decide

If I Love or if I fear

Some people know exactly about the power
Control information, for the child they don't care
I remember the sacred power
Courageous now, ignore the fear
Wandering on the own way

The joyful song

On a journey through the past I saw
A tribe living free on earth
They were moving smoothly on the ground
In a shining peaceful mood
In the heart they kept the prayer ever
On their lips a joyful song

The song was a prayer from the old, old times
About Love the natural Law
A prayer to the garden nature
Gods beauty here on earth
In the heart they kept the prayer ever
On the lips the joyful song

Foreseeing that the times are changing
And the danger of a world of fear
They taught the stones to preserve the song
About Love the natural law
To keep in the heart the prayer ever
On the lips a joyful song

Now these days in our moving world
The stones still are full of joy
The mountains, the beach the bricks and walls
Are gently reminding me
To keep in the heart the prayer ever
On the lips a joyful song

Lilith

Oh Lilith, Aum Lilith
Please show me what it means
- When you rise along my spine
Oh Lilith, Oh Lilith, Oh Lilith, Oh Lilith, Aum Lilith
Please show me and shake us till we realize

Yes what life means and I've done with it
With our power without knowing what I create
When I project all my problems onto all the other ones

Which I separate - in good and bad

Oh Lilith, Oh Lilith, Oh Lilith, Oh Lilith, Aum Lilith

Please show me what it means

- When you rise along my spine

Oh Lilith - Om Lilith

Yes finally I want to know, who I am and why I live

Aum Lilith please, tell me since how long

Does life exist and are we turning around our sun

Please, I want to know, why are we always growing

And how long do we have to creep still in the dust

I want to understand why mankind doesn't get

To live in peace with freedom in our mind and our heart

And tell me how it comes, that moon lights our night

Sometimes dark and sometimes bright

And what life means and we've done with it

With our power, without knowing, what we create

When we project all our problems onto all the other ones

Which we separate in good and bad

Oh Lilith, Oh Lilith, Oh Lilith, Oh Lilith, Aum Lilith

Please show me what it means

- When you rise along my spine

Oh Lilith - Aum Lilith

Please show me and awake me

That I realize

Yes what life means and I do with it

With my power exactly knowing, what I create

When I look at all my problems to solve them now

I see how beautiful

- You are

I have the feeling

I have the feeling

I've got the feeling I am

I have the feeling I am, I am live on earth

I have the feeling I am love

I have the feeling I am, I am the truth I am the way

The dream I dream to night, of loving Peace

Of living Love on earth, the dream I dream is real

I have the feeling every breath I take

I have the feeling every step I make

I have the feeling I am a child of god

I have the feeling I am the son of the Allone and the Earth

The dream I dream tonight, of loving Peace

Of living love on earth, the dream I dream is real

Horizon

At the horizon, a new day is rising
It is the light in the heart
In shadows we're diving the new day's arriving
To throw light in the dark
 Life is arising
 On Earth, in you and me
 Free will and Joy
 Are dreaming for healing
A new man - a new woman - the world
A new man - a new woman - the child

The past melts away like a wave in the sand
In the light of the heart
Fear of experienced pain loses stand
In the hope of the new start
 Hope is arising
 On earth, in you and me
 Free will and joy
 Are dreaming for healing
A new man - a new woman - the world
A new man - a new woman - the child

The hopeful vision for the dawn of a new day
Creates overflow joy in my heart
Quiet and Peaceful thinking guides our senses on the way
To flow free in our love
 Love is arising
 On earth, in you and me
 Free will and joy
 Are dreaming for healing
A new man - a new woman - the world
A new man - a new woman - the child, a new world

I see a new generation of free children are dancing on this earth again,
In the Love and under the wings of the Allone Creator

Time of Change

Sad feelings - for the night to come
Expectations - of such a lonely time
We haven't yet - to remember of
Such hard days - such hard days
Now we have to face - all we reached on earth

Time of change --- Time of change

We're just let the cave - to play on the ground
You sucked the blood - all out of her
Till she's going to die - but there is still a hope

Time of change --- Time of change

Tears are falling - yes, to heal the earth
Love has been - and will always be
Universal law - the judge for me
The splitting sword - swirls through ground and air

Time of change --- Time of change

Find out a way

I'm going to find out a way
A way out of here
A way out of this daily life
A way out of this thirsty mood

I'm on the way back to myself
I got a weight on my shoulders
Consists in fear from my past life
Invisible for my blind mind

Are they gluing up my sad heart
Reducing me to a small men
I'm not able to live my own life
Not dependent on anything else but me
I'm going to find out a way out of here
Out of this daily life with troubles and fear

We are living beings and we're going to live again
On happiness and joy is based our way
Let's do what we do create out of our heart again
We are the life, so let the bud now bloom

These days

I am aware of the small ribbon of light there
Ahead at the horizon on my way
Under dark clouds I walk these days
- These days, these days
I am here these days I am growing
On earth to be what I am showing
The world, how I feel and root in the real ground
- These days, these days

These days life calls with tender love to meet me
The circle of the golden rainbow light now makes me see
Who I am, the truth of myself and the life
- These days, these days
These days I'm going to find, what I searched for all my life
The field with the grain is for harvest ripe
All I get and all I see has to be like it is
Cause the mirror of the soul emerge these days
- These days, these days
You get all you want but you break what you hold
The demon that I fight is my souls dark side
Forgiveness lights the dark side of my soul
- These days
These days, these days Life heals me.
Come on life, please heal me Life
Life come on and heal me, mirror of the soul
These days, these days

Man on the horse

The man on the horse
With the sword in his hand
Has done his job quit well
But time has changed black clouds are coming down
The hero never tires to fight for his Land
The colour of his sword has changed to blood red
From the fight of many times
Still his riding through the wild worlds
With an eye on us down here
Many years were passing by
While he fought for the law without fear
But nobody's able to help him now
So the dragon always grows - the dragon always grows

Victory for the enemy - brings peace but burns like fire....

Now we're waiting for the last battle
But the decision has already passed
The dragons powers grows very quick
But this knight has no fear
He takes the animal right at his neck
And throws him down on the earth

Now the dragon built up his power
He creates an international state
To bring the divine show
Finally to the awaited end
He leads the tribes with an iron hand

And tempts their hearts away – he tempts their hearts away
Victory for the enemy – brings peace but burns like fire....
Freedom of mankind is what he fights for
Worldwide peace is his proof
So all the nations bow their heads
And support his stern Law
But a handful of children are still waiting for
The rescue by their Hero
Than at the darkest day since ever
The hero took them all away
Imagine how angry the animal got
When he saw that he lost the game
He let feel the tribes all his anger
Cause heaven left the earth
Victory for the enemy – brings peace but burns like fire....
And now there's what has never been
Freezing cold and endless night
No Love on earth is the sign
For fight never seen before
But now the heart full of living love
Lights the blinded human mind

Travelling Lover

Some days ago
I was walking down the street
The wind was blowing cold
I was freezing in deed
But the heard in my breast
Beats the rhythm of my live
I'm a Lover all my life long
 I'm a travelling Lover – for all my live
The girl I met then asked
Please stay with me
I love you
So you belong to me
No, I said
And took her on my knees
You feel so nice
But never mind
 I'm a travelling Lover – for all my live
If you want to Love
First love yourself
Find out who you are

Be honest with yourself
You got life in the heard
You are the soul my friend
Leave your troubling mind
See what you will find
I'm a travelling Lover – for all my live
I care for you day and night

Free as a Bird (Time for a change)

I let you free, to love who you want to
Open your heart, free your love for me
Free yourself, let you flow let it go
I'm tired to wait, what do you wait for

It's time for a change now; it's time for a change,
Use your word, be free as this bird
It's time for a change; it's time for a change
Come and tell me, you're free as a bird

Talking of free Love is loud less preaching
As long as your heart is stocked in pain
I pray for healing, the tear in your sad eye
For the flow of living water, I tempt you to night

It's time for a change now,

Let catch us the wave, in the living water
The journey of life, leads us to the light
My love for you teaches me where joy is
All is inside, let's spread out the light

It's time for a change now, ...

Child in Time

Come on sweet child of time
Open up your heart
Let your love shine
Make a new start
Come on now let's be wild
We're dancing like a child
In the warm summer rain of love

Let your love flow
Leave this world of fear
We're like rainbows
And spread the light down here
Come on now let's be wild
We're dancing like a child

In the warm summer rain of love

I just want to love

I want to love wild

Love like a child

In the warm summer rain of love

Please help to heal this world

That's our second birth

I want to go home

I'm tired to feel alone

The parents are smiling mild

We're dancing as there child

In the warm summer rain of love

Trust Live

I realized one day in winter

The only enemy I have is my own fear

Why should I not live my own dream

The hindrance is simply my own fear

Yes the hindrance is only my own fear

There are so many different confessions

Believes of what I shouldn't do with my life

So called knowledge and persuasion

Were mystifying the search for my way

Were mystifying the search for my way

I am dreaming of a life free of illusion

A life where all problems are a chance

I feel freedom in my body; I feel freedom in my soul

If I trust life keeps everything under control

Yes I trust life has all under control

Give it all away

Free your heart through giving

Give it all away

All what's worth giving

Give it all away

I am walking free in Loves name

My doubts i lost somewhere

Yes i love you Shiva/Yahweh,

I pray for peace right now and here

I am walking here with Jesus

And Buddha on my side
I am walking around with Krishna
I'm laying down my pride
I am walking here with Jesus...
