### 01. The Body is the church

Listen to the story, which this world wants to tell  
And find out what is your truth

Everywhere you're going, the way is plastered well  
With an information to program your mind

Many forces out there, wants you to believe  
That this and that is the right thing for you

I find it much important now, no matter what you receive  
That you are the truth of your life

My body is the church, and I am the soul  
Keep in mind, that Love is the origin and the goal

That the world still lies to you, has the reason that we learn  
To find the entire truth inside ourselves

Why should a woman or a man, a stargirl born on earth  
Be defined by things you hear or you see  
Be aware that out there in the time, are some they work with lies  
That you never find out, someone owns your life

My child belongs to me, one day you will be dead  
You have to work, and it always has been like this... - are lies  
It takes a long time to achieve peace, Life is hard, you are separated  
From God, are things they want you to believe, but... - these are lies  
My body is the church, and I am the soul  
Keep in mind, that Love is the origin and the goal

## 02. Dancing in time

Last week I was walking down the road  
And I met an old friend of mine.  
"Hello, how are you?" I asked him.  
And he told me, "Oh, I am not so well these days.  
I lost everything I had, I lost my wife, I lost my job,  
I lost my house, and I even lost my dream

Do you remember the days?  
When we were dreaming the space  
To lose ourselves to fall in Love with Life  
Do you still know about or dream?  
To open up all the unseen  
And travelling down in time on wings of Love

Yes, you knew it won't be easy  
In the density to be  
But now remember – we are dancing in time

Can you still hear the melody?  
That teaches us what all can be  
Listening to this wonderful sound called Life  
Are you still able to dance?  
To move, to jump over the fence  
Finding your way in the infinity of space

Yes you knew it won't be easy.....

Do you agree that you and me?

Yes, that the things we see,  
Are all a part and one within the Unity?  
Are you aware of yourself, now?  
And that the place, where you are  
Exactly the place is, where you want to be

Yes you knew it won't be easy.....

## 04. Together but all on my own

After childhood I left home and roamed around on earth  
I had no other hope, then finding my own way back to birth  
Silver shining horizons were pulling me forward back home  
There was no other way then going all along - along on my own

To meet you - the sun rises in the sky  
To meet you – is saying to the past goodbye....

From here to there I was wandering around along on my way  
I don't want to go on alone anymore, and as well I don't want to stay  
Dancing a natural live in freedom and joy is my dream, you want to come  
We follow the sun, to find out where the light - the light is coming from

To feel you – is coming home at night  
To feel you – is dropping down the weight....  
....come on now, we brighten the night

My desire for you I can't hold back, please be mine  
I'm already yours and still on my own, let's be together for a time  
The Power I feel in between our Body and Soul  
Is more the I understand, but I know -I know this Power is my Goal

To be with you – is placing the crown  
To be with you – is being together on my own....  
.... Together but all on my own

On our own way we're moving through the night  
Being with you feels like reaching home

Together but all on my own....., ...all on my own

## 07. The key

The boundary stone at the way out there  
On the journey of the life aiming at nowhere  
    Scares the small men, leaving his known land  
Driven by beliefs he gained in the past  
Competent moulted and pressed in a cast  
    Guided by wishes, he needs what he misses

Your beliefs and thinking are turning all around  
What you reach out there, what will be found  
When you're reaching there  
You reach what you're hoping  
You hope what you are knowing  
You get what you're hoping

Following the river, with the aim to reach  
If not at the source, then at least at the beach  
    Hopefully before dying, on what you are relying  
Struggling hard to be someone  
Trying to find out what you want to become  
    Instead of just being, you are what you're seeing

Your beliefs and thinking are turning all around.....

Balancing and movement is the law in here  
That's why the free life truly reappears  
Not only tomorrow, is there something you don't know  
Freedom of thinking without fear is vast  
The eternal now includes future and past  
Just the presence allays me; I think this is the key

Your beliefs and thinking are turning all around.....  
Just the presence saturates me; I think this is the key

## 08. Blood Hero's

The Dream of the old heroes was to live in honour,  
In honour and pain for their kingdom, for their kings, for their queens.

So they drowned the land in blood  
And the blood stained land now calls loud  
Please forgive me the pain, please forgive me the blood

Please forgive me the guilt.

For these thousands of years, all this blood in the earth is crying for freedom  
And there will be freedom in the glow of the sun  
The Sunlight will glow through the night  
And all the pain will be forgotten and forgiven, to see the new pure land.

The new pure land, which is able to breathe deeply  
And to live without sorrow on this earth, o enjoy the youth  
To enjoy the life without knowledge of being old or weak.

And Love is the guidance.

## 09. Carried by the Wind

I am carried by the wind

I know where we're going.....

Yes on thing for sure I know  
That's the right way, where we go  
I am at home where I am  
I feel as much joy, as I can

Let's dance tonight  
On the rising Light  
Yes, you and me  
We are always free

## 11. Hero of the night

I like the thought that out there in space  
The sun shines even during the night  
    This shows me clear that if I dive deeper  
    There's always more the obvious view  
If you believe that good is good and bad is bad  
I suggest you to consider the idea  
    We incarnate on earth to stay in boundless Love  
    Day and night, with enemy and friend  
You come from the stars to bring the light down here  
You are the hero of the night

Out of being we dive deep into the matter  
And forget about, who we really are  
    We forget about the dimensions, which we travelled through  
    And about our power to create  
With our imagination we define the world  
It's you the one that decides  
    Use your sword wisely; let your heard be the guide  
    Freedom only exists inside  
The world is your mirror, an illusion you're living in  
The hero's task is to wake up from his dream
